

## PBA members making a difference in the community.

The Pennsylvania Builders Association (PBA) Associates Council is proud to partner with Manna on Main Street as part of the Council's ongoing effort to improve the condition of Pennsylvania's less fortunate citizens. The Associates Council is continuing the effort to collect food donations and monetary contributions that started earlier this year. Manna on Main Street is part of the Building Support Community Service Project. Manna on Main Street is committed to ending hunger in the North Penn region of Montgomery County and the larger community by providing food, fulfilling social service and education needs, and conducting community outreach. Through a food pantry and soup kitchen (the Professional Women in Building and the HBA of Bucks/Mont take 1 day a month to help), emergency financial aid, counseling and referrals, and education opportunities, Manna serves those in need with the hope "that everyone might be fed." The goal is simple, to provide a needed service to the vulnerable in our community.
